

## FAN ZONE (2/2)

## Lightbox Notes:

The lightbox floats  $\pm 30\text{mm}$  above the facing panel - shown below. The area surrounding the lightbox may be branded as well, bearing in mind that this content bleeds underneath the clear perspex frame and even under the outer borders of the lightbox visual area. The artwork for the surround should ideally be to the sizes below plus 20mm bleed.

Note: The surrounding area does taper from the bottom upwards.
